SUMMARY

A team-oriented Computer Science scholar, interested in software development, data science, finance, and cybersecurity. I am currently seeking an internship opportunity that would allow me get hands on experience to help better prepare me for a job in the STEM field.

EDUCATION

Cheyney University, Expected June 2023

Cheyney, PA

Bachelor of Science in Computer Science; 3.7/4.0 GPA

TECHNICAL SKILLS AND SOFTWARE PROFICIENCIES

Java • Python 3 • SQL/MySQL • Excel • GIT • Web Development • Bootstrap • HTML/CSS • Office 365 • Adobe Creative Suite

PROJECT EXPERIENCE

Fall 2020

Project Chronos

Cheyney, PA

Participated in the HBCU Battle of the Brains and developed a mock-up application site and filmed and edited a demo.

- Used Adobe XD for development of mockup and Adobe Premiere Pro to edit recordings

WORK EXPERIENCE

Summer 2021

Steppingstone Scholars

Philadelphia, PA

Java Instructor Internship

Co-taught ten students an AP CS course over the summer virtually over Zoom.

- Helped 10 students debug their projects 1 on 1 and mentored students with how college life is for me personally to develop good relationships with my students.
- Created demos of projects and met with coworkers weekly to discuss plans and strategies for the week.
- Taught 25 to 30 hours a week until program ended

Fall 2019 – Spring 2021

Student Researcher

Cheyney, PA

Student Researcher

Worked with peers and professors on several projects during the school years ranging from administering user studies for app development to scripting and creating videos of demos.

- Received 3 additional classes from Human Centered Design
- Documented and kept archive of group research using GitHub
- Annotated activities using ELAN Software
